Projects

Personal Portfolio Website

March 2025

- I have created my personal portfolio website, using HTML and CSS to showcase my skills, projects, and achievements. The website features a clean and responsive design, ensuring a seamless user experience across different devices. It serves as a digital space where I highlight my work, demonstrate my expertise in front-end development, and share my passion for design and web technologies."
- Tools Used: HTML , CSS

Shopping Portal

October 2024

- "I have developed a Flipkart clone using modern web technologies such as HTML,CSS,JavaScript,and Bootstrap,ensuring a seamless and responsive design."
- Tools Used: HTML,CSS,JavaScript,Bootstrap

Calculator

feb 2025

- "I have developed a fully functional calculator using HTML, CSS, and JavaScript, which provides essential arithmetic operations with a user-friendly interface. The calculator features a responsive design, ensuring smooth usability across different devices. JavaScript powers the logic behind real-time calculations, while CSS enhances the visual appeal for a clean and intuitive user experience."
- Tools Used: HTML,CSS,JavaScript

Experience

CodSoft, Web Development Intern

14 feb 2025 –14 March 2025

- I have created a personal portfolio website using CSS and HTML is a popular beginner web development project.
- I have created a landing page using HTML and CSS.
- I have developed a basic calculator using CSS ,HTML, and JavaScript.
